Project Status Update: MVP Phase 1

This will mark the **completion of Phase 1 (MVP Design)**.

To ensure the project moves forward efficiently, please note the following roadmap:

- **Phase 2: Refinements & Content Updates** Any minor adjustments to the design, text, or specific content elements will be addressed during this phase to ensure every detail aligns with your vision.
- **Phase 3: Deployment & Go-Live** This final stage will include the official hosting configuration and domain setup to launch the project.

Next Steps

The transition from Phase 1 to Phase 2 is contingent upon the **settlement of the Phase 1 milestone payment**.

Prompt completion of this payment ensures a seamless workflow, maintains your project's priority in our development schedule, and allows us to begin Phase 2 immediately.
